YEARS EXPERIENCE	PROMOTED AT MATAAF	PRODUCTS SHIPPED	TDD COVERAGE

PROFILE

Full Stack Developer with **3+ years** building production-grade web and mobile applications at Mataaf Technologies, **promoted twice** in recognition of ownership and consistent delivery. Specialist in shipping reliable, scalable products on a **Node.js/NestJS & React** stack, and building cross-platform **mobile apps for Android and iOS with React Native** — from API design and database modelling to responsive user interfaces. Strong advocate of clean code and thorough code reviews, while accelerating delivery with AI-powered development (**Claude, Cursor, GitHub Copilot, Antigravity**). Collaborates closely with designers, QA and stakeholders **from design to deployment**.

EXPERIENCE

Mataaf Technologies · Remote

2024 – Present · Promoted 2×

Full Stack Developer

2026 – Present

Mataaf Technologies · Product Ownership

- Own features end-to-end across **frontend, backend and mobile**, from requirements to release.
- Build and publish **React Native apps** for Android and iOS, managing **Google Play and App Store** listings and releases.
- Take **product-level responsibility** — technical decisions, planning and stakeholder collaboration.

Full Stack Developer

2025 – 2026

Mataaf Technologies

- Built **frontend and backend** features for web apps on Node.js/NestJS & React.
- Designed REST APIs and databases and took modules from development to deployment.

Web Application Developer

2024 – 2025

Mataaf Technologies

- Built responsive **web application UIs** and reusable components from designs.

Web Application Developer → Full Stack Developer → Product Ownership
